PROFESSIONAL SUMMARY

Technically proficient Information Technology graduate with professional experience in enterprise technical support, network administration, and full-stack development. Proven capability in hardware troubleshooting, software engineering, and systems administration through enterprise internships and AI capstone projects. Seeking an entry-level IT position (Web Developer, Helpdesk, or Systems Engineer) to deploy scalable, high-availability technical solutions.

SKILLS

- Development: ASP.NET Core, ASP.NET MVC/Razor, C#, JavaScript, HTML5, CSS3, Vercel, Python, Java
- Networking & Systems: Cisco Packet Tracer, Active Directory, Routing/Switching, CAT6 Cabling
- Database & Infrastructure: MySQL, InnoDB, Git, GitHub, cPanel, WHM, Linux Systems Admin
- IT Support: Tier III Technical Support, Hardware Diagnostics, PC Configuration

EDUCATION

UNIVERSITY OF CEBU – MAIN CAMPUS | Cebu City, Philippines

Bachelor of Science in Information Technology (BSIT)

EXPERIENCE

SUPPORTING ENTERPRISES | IT Support Intern | Jan 2026 – Apr 2026

- Rendered 540 hours of enterprise technical support, hardware configuration, and infrastructure maintenance.
- Configured, deployed, and troubleshooted employee PC workstations, minimizing onboarding technical delays.
- Built and tested Class B CAT6 network cabling to optimize local network physical architecture and connectivity.

- Managed enterprise service ticketing logs, identifying and resolving recurring software and hardware failures.

TTEC | Tier III Technical Support Representative | Past Role

- Delivered advanced technical troubleshooting for intricate device, network, and enterprise account provisioning issues.
- Documented high-complexity technical incidents within a CRM ticketing framework to expedite tier-escalation workflows.
- Maximized first-contact resolution metrics by diagnosing and isolating hardware vs. network-level faults efficiently.

PROJECTS

AI-Powered Resume Analyzer (Capstone Project) | *C#, ASP.NET, Git, Vercel*

- Engineered a full-stack web application that parses and scores CV data against target job descriptions.
- Leveraged automated text analysis models to calculate keyword density and optimize formatting compliance for ATS engines.
- Architected development pipelines using Git and GitHub, managing production environment deployment on Vercel.

Enterprise Active Directory & Network Simulation | *Cisco Packet Tracer*

- Designed and mapped an enterprise-level network topology integrating custom subnetting, routing, and switching.
- Deployed an Active Directory simulation to manage mock user authentication, access control lists, and group policies.

CERTIFICATIONS & TRAINING

- cPanel & WHM System Administrator I & II Certifications
- cPanel Professional Certification & Certified Partner Accreditation
- CCNAv7: Switching, Routing, and Wireless Essentials
- CCNAv7: Introduction to Networks
